CLOSE YOUR NETWORK ADMIN GAP WITH UNDERREPRESENTED TALENT

Problem

It's hard to find the right network administrator ... and it's even more difficult to find diverse talent.

WOS is the only organization in the U.S. that combines all aspects of the new employee lifecycle into one comprehensive **end-to-end** workforce development solution. By combining the program creation, design and development, recruitment/selection, academic training, full-time WOS employment, a research-backed predictive analytic instrument and eventual transition to a full-time employee at the partner company, WOS has created a **systemic solution** to assimilate historically underrepresented individuals into the corporate space.

Did you know...

In 2019, Black and Latinx employees represented just **3%** to **5%** of employees at the **23** highest-grossing tech companies

WOS offers a cost effective solution that speaks to your diversity needs and goals

WOS' high touch comprehensive framework is designed to mitigate the risk to their partners and to ensure program participant success. This allows the necessary training, individual mentorship, corporate assimilation and overall time needed for a successful long-lasting transition to a full-time employee at WOS partner companies. And when that time comes, there is **NO COST** to convert!

FACT:

The average industry cost for one year of an early career certified network engineer, including salary, benefits, hiring, training, and certifications, is over **125K**

The WOS framework provides high potential, trained diversity candidates and/or military veterans for thousands less

Participants will gain actionable knowledge to help them develop as individuals, students, and professionals. Throughout the certificate program, they will explore personal management skills needed for the workplace, including how participants' experience and knowledge can translate into success at work.

CompTIA, the world's leading tech association, is a thought leader and an action leader. From our IT professional association to our leading certification programs, from our original research to our member communities and councils, our unparalleled programs set industry standards, foster skills development and generate knowledge and insight every day.

Cisco Networking Academy is a global platform which can be used to inspire students and instructors to make their future brighter. Cisco Networking Academy puts theory and hands-on-experience into practice. Participants will gain a CCNA certification before they come on-site.
