# CLOSE YOUR SYSTEM ADMINISTRATOR GAP WITH UNDERREPRESENTED TALENT

## Problem

It's real hard  
to get the right  
sysadmin...  
and it's even  
more difficult  
to get diverse  
talent.

WOS is the only organization in the U.S. that combines all aspects of the new employee lifecycle into one comprehensive **end-to-end** workforce development solution.

By combining the program creation, design and development, recruitment/selection, academic training, full-time WOS employment, a research-backed predictive analytic instrument and eventual transition to a full-time employee at the partner company, WOS has created a **systemic solution** to assimilate historically underrepresented individuals into the corporate space.

## Did you know...

Almost one-third (**32%**) of US tech companies have not yet hired tech employees who are women or underrepresented racial and ethnic minorities

WOS offers a cost effective solution that speaks to your diversity needs and goals

WOS' high touch comprehensive framework is designed to mitigate the risk to their partners and to ensure program participant success. This allows the necessary training, individual mentorship, corporate assimilation and overall time needed for a successful long-lasting transition to a full-time employee at WOS partner companies. And when that time comes, there is **NO COST** to convert!

## FACT:

The average industry cost for one year of an early career certified systems administrator, including salary, benefits, hiring, training, and certifications, is over **115K**

The WOS framework provides high potential, trained diversity candidates and/or military veterans for thousands less

Participants will gain actionable knowledge to help them develop as individuals, students, and professionals. Throughout the certificate program, they will explore personal management skills needed for the workplace, including how participants' experience and knowledge can translate into success at work.

Global Knowledge is a worldwide leader in IT training and professional development. We empower organizations, teams and individuals with the skills and best practices necessary to leverage the technologies to deliver the intended business outcomes driving every project.

Microsoft certified professionals bring an needed level of expertise to the workplace. WOS program participants will receive training to prepare them for the MCSA and MCSE certifications. Program participants will have completed the training and received the certifications before they begin working on site.
